Divine Mother Calendar Instructions

The Haidakhandi Universal Ashram published a Divine Mother Calendar with beautiful images by professional photographer, JD Marston (jdmarston.com). We are making these images available for your personal use. A good way to use these photos is to set them as your screen saver or desktop background on your mac or pc. You will see links below to download and setup these images as a screen saver or desktop background allowing the Divine Mother to be always present in your day. The Ashram is also producing some of the images into fine prints that can be purchased on the Shop website. Jai Ma!

Download and Extract

- 1. Download **divine_mother_calendar.zip** file from the following location: <u>https://www.dropbox.com/s/ddvs1h4e4pxmehp/divine_mother_calendar.zip?dl=0</u>
- 2. Click on Download (If you select the down-arrow then select Direct Download)

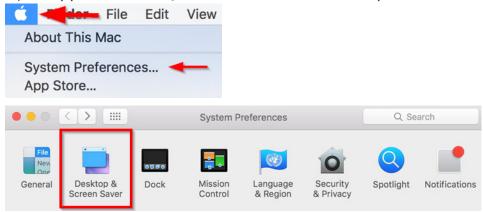

- 3. Save the file to your location of choosing (e.g. Pictures or Documents)
- 4. Extract divine_mother_calendar.zip by double clicking the zip file in Finder (Mac) or File Explorer (Windows)

Mac

- 1. Extract divine_mother_calendar.zip by double clicking the zip file in Finder
- 2. Open Apple menu -> System Preferences -> Desktop & Screen Saver

Screen Saver

1. Select Screen Saver tab

	Desktop Screen Saver
Floating Floating Flip-up	
Reflections	Source: divine_mother_calendar
Start after: 20 Minutes	Show with clock Hot Corners ?

- 2. Select Source drop-down -> Choose Folder...
- 3. Navigate to divine_mother_calendar folder -> click Choose
- 4. Customize other settings (screen saver type, start after, etc.) based on your personal preference
- 5. Further instructions on customization are available at: https://support.apple.com/en-us/HT204379

Desktop Background

- 1. Select **Desktop** tab
- Click Add + -> navigate to divine_mother_calendar folder -> click Choose
 (Note: you can also select the folder by simply dragging it from Finder to the Folders section)

6. Customize other settings (change picture, random order, background color, etc.) based on your personal preference

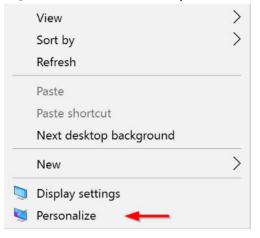

(Note: Fit to Screen will likely be the best selection to be able to display full images)

Windows 10

- 1. Extract divine_mother_calendar.zip by double clicking the zip file in File Explorer
- 2. Right-click on the desktop and select Personalize

Screen Saver

1. Select Lock Screen -> Screen saver settings
